DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- Cancel Claims 16-24 and 26-35
- In claim 9, on line 2 insert "a " after the phrase 'measured response of' and before the word 'transducer'
- In claims 37-40, in the second line after "response of", delete --an analog output-- and replace with "the"
- Additionally in claim 38, on the last line of the claim delete --ncy, or a modulated pulse train--
- Additionally in claim 39, on the last line of the claim delete --digital communication protocol.--

Authorization for this examiner's amendment was given in a telephone interview with Stephen Salai on November 17 and 18, 2005.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

In regard to independent claims 1, 25, and 36, the prior art does not teach or render obvious disabling the amplifier while leaving the feedback element in place during testing of a transducer in-situ and in the combination as claimed.

Claims 2-15 and 37-40 are allowable because of their dependence from an allowable base claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
